## GETTING TO KNOW...THOMAS JEFFERSON!

by Donald Cravins

I visited Thomas Jefferson's house, Monticello, near Charlottesville, Virginia. I learned a lot about him. He was the 3<sup>rd</sup> President. He wrote the Declaration of Independence. He was an author and an architect. Jefferson's house was very large and he traveled the world and thought of things to add to his house. He added 8 chimneys and 13 skylights to his house. He was also an inventor. Jefferson invented the copy machine.

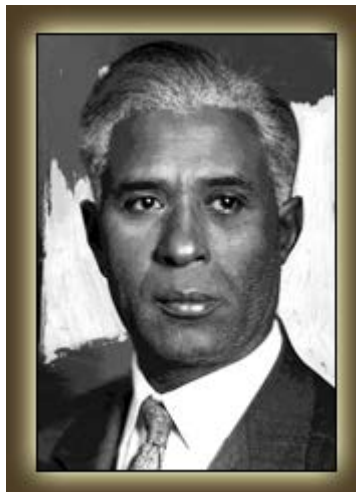

---

## IMPORTANT NOVEMBER DATES IN HISTORY!

**November 11-Veteran's Day- Thank a soldier for their service!**

**November 20, 1923** -Garret Morgan, (shown below) the son of a former slave, invented and patented the traffic light after witnessing an accident between a car and a horse and carriage.

## ***DID YOU KNOW?***

The Number 1 Movie for Kids in theatres is the animated 3-D movie '*Puss In Boots*'. The movie is the story of the sword fighting cat leading up to meeting Shrek and friends. Check it out!

**JOKE OF THE WEEK: What are turkeys thankful for? .....Vegetarians!**

**\*\*REMEMBER TO BRING IN CANNED GOODS FOR THE FOOD DRIVE!**

**SEND US YOUR IDEAS:** If you have any news, articles, poems or ideas to include in *The Saint*, please submit to Donald Cravins on or before each Friday. Thanks for reading!
